Press Release

Shockwave Motors is a Semi-finalist at the Future Energy Pitching Event

A New Day is Dawning for Electric Cars

Russellville, TN January 22, 2013:

- Shockwave Motors has been selected as a semi-finalist at the Future Energy Pitching Event at the APRA-E Energy Innovation Summit in Washington D.C. on Monday, February 25, 2013. A total of eight startups will be selected to present from over 300 applicants. Six of these eight will be hand-picked by the Selection Committee. The remaining two pitch slots will be awarded to the two startups who get the most votes on the crowd-voting platform. All eight startups get to present in front of a panel of top venture capital investors and the entire ARPA-E Summit (over 2,500 attendees).
- At Shockwave Motors our plug-in electric cars are an innovative combination of the best of today's propulsion technology and sleek, aerodynamic styling. Our proof-of-concept electric vehicle has undergone more than 4 years of performance testing. At low speeds, we are achieving the equivalent of over 350 MPG, at highway speeds the equivalent of 225 MPG!
- To help ensure Shockwave Motors is selected to "pitch" our high-performance electric roadsters to potential funding partners, we invite you to visit our profile on the [Future Energy Ultra Light Starts](http://futureenergy.ultralightstartups.com/campaign/detail/769) crowd-voting platform (<http://futureenergy.ultralightstartups.com/campaign/detail/769>) and learn more about our affordable electric roadsters.
